

[PATIENT],

Thank you for your interest in PREVENTABLE! It was a pleasure connecting with you today. I've attached the consent documents for the study as they contain comprehensive information on how it operates, expectations for participants, and associated risks. **Please note that these are purely for your review; if you choose to move forward with participating we would formally complete them at a later time.**

If you have any questions or concerns, or you would like to proceed with scheduling a meeting to enroll, feel free to reply to this email or give me a call at 770-330-7790. I would also recommend you visit the PREVENTABLE website (<https://preventabletrial.org/home.cfm>) and register for one of their weekly webinars; they are an excellent source of information.

Best,

[STAFF]
